LOUISVILLE DOWNTOWN PARTNERSHIP

Louisville Downtown Partnership was formed in 2013 and is comprised of two long-standing organizations: the Louisville Downtown Management District and the Louisville Downtown Development Corporation.

The Louisville Downtown Management District (LDMD),

Kentucky's first Business Improvement District (BID), was established in 1991 to promote the economic, residential and cultural vitality of the core of Downtown.

LDMD's mission is to promote Downtown's quality of life by creating a safe, clean, and enjoyable environment, providing services that are designed to enhance the physical environment of the Downtown, including improvements for better security, maintenance, cleanliness, and marketing.

Louisville Downtown Development Corporation (LDDC) is a private, non-profit 501(c)(3) organization dedicated to the long-term economic health of Downtown Louisville and represents the community's civic and business leadership. Since 1999, LDDC has played a crucial role in bringing together both public and private sectors as partners in Downtown Louisville redevelopment. LDDC also serves as the lead entity in the development and implementation of the Downtown Master Plan.
